A 2-Day WORKSHOP

T H E M E :

'Integrated Management Skills For Engineers!'

SCHEDULE

DATE: Wednesday 19th and Thursday 20th April, 2017.

VENUE: LUTON PARK HOTEL, 1, Park Road, off Udoudoma Avenue, Uyo, Akwa Ibom State

FEE PER PARTICIPANT: N45,000:00 (Forty-five Thousand Naira Only)

Time: 9am - 3pm Daily

ABOUT THE WORKSHOP: Management is the whole essence of human activities. Every organization personnel, including the engineer, are involved in one form of entrepreneurship management or another as a way of earning a source of livelihood. This entails the optimum utilization of productive resources including financial capital, machineries, clientele, time and indeed, personnel. A manager does these in his capacity as employee or employer in charge both in the public and private sectors.

In Nigeria today, we need many skillful managers of businesses, first and foremost, in the engineering sector generally as they are known to form the bedrock of a truly emerging economy. This is why this training workshop is expedient for all engineers and allied professionals so as to equip them with business management acumen that can be leveraged upon for company sustenance, growth and stability. Nigeria is in the threshold of an era of massive infrastructural and industrial provision in the areas of real estate development, road construction, maintenance and manufacturing. All of these demand both the professional and managerial inputs of today's engineers. Nigeria's technological emancipation awaits management oriented engineers.

WORKSHOP MODULES:

1. Derivatives of Management
2. Statutory Requirements for Business Running in Nigeria
3. Business Research and Marketing Techniques.
4. Fundamentals of Business Ethics.
5. Contract Laws in Nigeria.
6. Interactive Sessions each Day.

WORKSHOP OBJECTIVES:

1. It will equip participants with a complete overview of company set up and management.
2. It will help the engineer in position of authority to better manage the resources at his disposal especially personnel and finance.
3. It will enhance overall efficiency in project execution as ethics are part of this package.
4. **For members and students of NICE, this workshop is a CPD factor**
5. As this workshop focuses on human capacity development, it will ultimately help Nigeria in the attainment of Millennium Development Goals project and the vision 20-2020 of the federal government.

WHO SHOULD ATTEND?

This workshop is expedient for project designers, managers, supervisors, maintenance personnel and other officers of Ministries, Departments and Agencies-MDAs It is also for contractors, manufacturers, consultants and employees in the private sector who oversee productive resources.
